

Dear Friend,

Celebrating the growth and accomplishments of Young Texans Against Cancer has been a pure joy over the past year. The 2005-2006 membership year marked our five-year anniversary and more importantly, marked our most successful year to date. YTAC distributed more than \$45,000 this year alone. We take great pride in sharing this news with those who have watched us grow year after year and those who are interested in learning more about the growth and development of our young organization.

YTAC does not have a parent organization that offers resources and funding. We are organized and led by dedicated individuals who volunteer their time, a quality which we believe speaks highly to the spirit and commitment that distinguishes YTAC.

Our organization has donated more than \$80,000 to ten various small and medium sized cancer organizations. Comprised of individuals between the ages of 20 - 40 years old, we are actively dedicated to the fight against cancer. The passion of our members and Directors is one of a kind. Our group of highly motivated young professionals is committed to raising funds to fight the many kinds of cancer that have affected loved ones.

Together, we can build a strong foundation for YTAC and enhance the financial and volunteer support of the cancer community. We truly appreciate your consideration of supporting our organization and we ask for your continued financial support by sending in the attached donation card. Thank you in advance for taking the time to learn more about Young Texans Against Cancer and our dedication to the cause.

Sincerely,

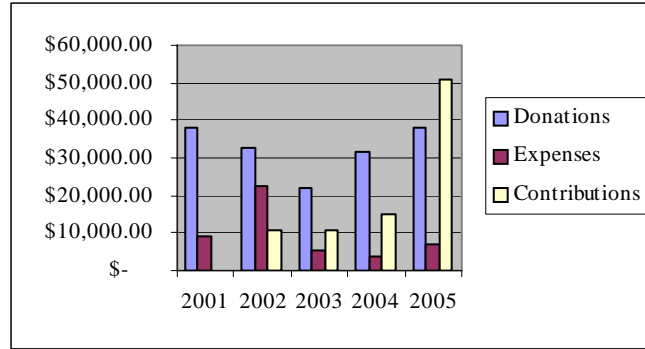

John Donovan
President

Mission Statement

Young Texans Against Cancer is a start-up, nonprofit organization comprised of young men and women who have either lost or witnessed a loved one fighting cancer or are seeking to become more actively involved in the cancer community. Our organization is focused on raising funds to help support small and medium sized research organizations, using our member base to increase support for volunteer organizations and helping continue to educate our community on cancer research.
